Akron Pediatric Orthopaedic Resident Review Course

COURSE OBJECTIVES

**Following this activity,
orthopaedic residents should be able to:**

- 1 Describe the normal growth & development of children and adolescents to enable differentiation between normal and pathological states.
- 2 Demonstrate understanding of the recognition, diagnosis, and management of common traumatic, congenital, developmental, and neuromuscular orthopaedic pathology in children and adolescents.
- 3 Understand the indications for operative and nonoperative treatment of these pathologic conditions.
- 4 Demonstrate technical facility of key pediatric orthopaedic surgical procedures.

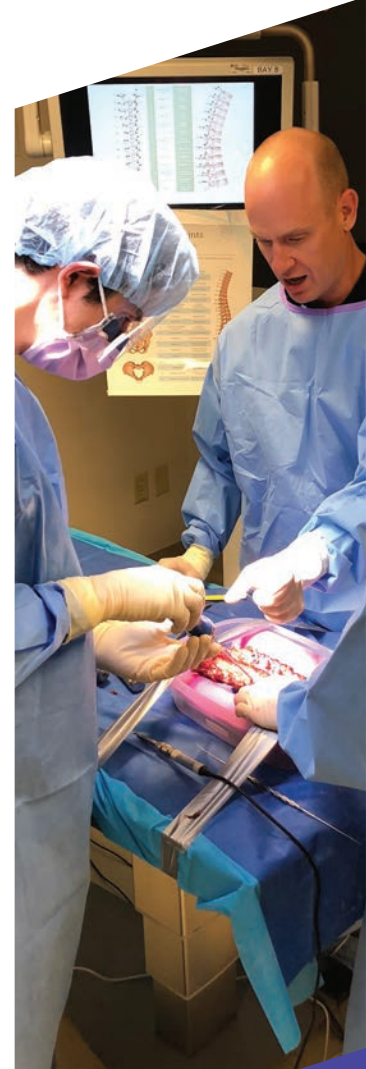

Dear Orthopaedic Resident:

We cordially invite you to the 7th Annual Akron Pediatric Orthopaedic Resident Review Course.

Highlights include:

- ★ Comprehensive review of all major topics within pediatric orthopaedic surgery, including:
 - ★ Trauma
 - ★ Spine & Neuromuscular
 - ★ Lower extremity
 - ★ Hand
 - ★ Sports
 - ★ Infection
- ★ Outstanding preparation for the orthopaedic In-Training Exam and ABOS Part 1
- ★ 20+ expert faculty from across the US
- ★ PGYs 4–5 track includes 8 hours of cadaver labs
- ★ PGYs 1–3 track includes 8 hours of sawbone labs, plus technique and case discussions
- ★ Low faculty/participant ratio
- ★ Career & life balance discussion panel

We hope to see you in October!

COURSE PROGRAM

New This Year—Two Tracks

To meet the specific educational needs of residents as they progress through their training, this year's course features two tracks.

★ **Track 1*: PGY's 4–5**

8 hours of hands-on cadaver labs, with a low ratio of students to lab stations

★ **Track 2*: PGYs 1–3**

8-hours of sawbone and other hands-on training, plus technique and case discussions with faculty

**Both tracks participate in the same didactic sessions*
